Join the first experiment in social tagging of art museum collections.

Here's how:

- Tag Art
- Museums
- Researchers
- Developers

What is steve? Steve is a research project whose participants are building a tagging tool, collecting tags, analyzing data, and engaging in discussion. We hope to apply what we learn to improving access to works of art. Here's a diagram of steve's world.
This project is funded, in part, by a grant from the U.S. Institute of Museum and Library Services.
